

# PRECAUTIONS

Please read carefully before proceeding

Please observe the following instructions when you play the instrument to avoid any injury to person and damage to the instrument or other external equipments. The items are as follows but are not limited.

- 01 Read these instructions.
- 02 Keep these instructions.
- 03 Heed all warnings.
- 04 Follow all instructions.
- 05 Do not use this apparatus near water.
- 06 Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 07 Do not install near any heat sources such as radiators, heat registers, stoves or other

apparatus(including amplifiers)that produces heat.

- 08 Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other.A grouding type plug has two blades and a third grounding prong. The wider blade or the third prong are provided for your safety. If the provided plug does not fit in to your outlet, consult anelectrician forreplacement of the obsolete outlet. This logo aims to alert users that there is uninsulated “dangerous voltage”in the product accessories that may lead to electronic shock to person. This logo aims to alert users that there are instrutions for important operations and maintenance(services) in the attachedgraphics.

## High voltage dangerous Warning

To avoid electronic shock, short circuit, accident, fire or other risks that may lead to serious injuries and deaths to users, pay attention to the following item but are not limited to:

- Keep away from moisture, do not put the container which is full of liquid on the instrument, such as the vase.

- Do not move the top or backboard
- Pull out the power plug before you clean the instrument. Plug the power plug with your dry hands.
- Check the power plug and clean the dirty regularly.
- Items not mentioned in the reference should be repaired by the user's.

## Warning

- Protect the power cord from being walked on or pinched, particularly at plug, convenience receptacles and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Use only with the cart, stand, tripod, bracket or table specified by the manufacturer, or sold, with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Do not place this apparatus in dusty, vibrational, cold or hot enviroment( for example under sunshine, heating or cars under the sunlight) for keeping the look and internal componentsfrom being damaged.

- Do not use this apparatus near other electronic appliance such as television, radio or speakers to protect it from being disturbed.
- Do not put this apparatus on the unstable places to prevent from being dropped and damaged.
- Clean the apparatus with soft dry cleaning cloth before it is moved. Do not use paint thinner, organic solvents or chemicals to clean the body. Besides, do not place the ethylene-related plastic on the apparatus to prevent the panel or keyboard from fading.
- Do not sit on the apparatus and put heavy things on it. Do not overexert when operating the switch button and the connecting cords.
- Do not master excessive volume to avoid any harm to your hearing. Go the see the doctor when your ears feel uncomfortable.
- Servicing is required when the apparatus has been damaged in any way, such as power-cord or plug is damages, liquid has been spilled or objects have fallen into the apparatus,
- the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- Our company is not responsible for any damage caused by the users, including incorrect use or modification for the apparatus which may lead to data lost and damages.

The illustrations and the screens of this manual are for instructional purposes only and may appear different from those on your instrument.

We thank you for selecting the all-new digital piano!Whether you are a student, teacher or professional, the piano will impress you with its musical quality and stylish design providing years of enjoyment. In addition, the digital piano is equipped with a high performance Hammer Action keyboard, for a realistic touch that allows you to express yourself in endless varieties of shad and color.

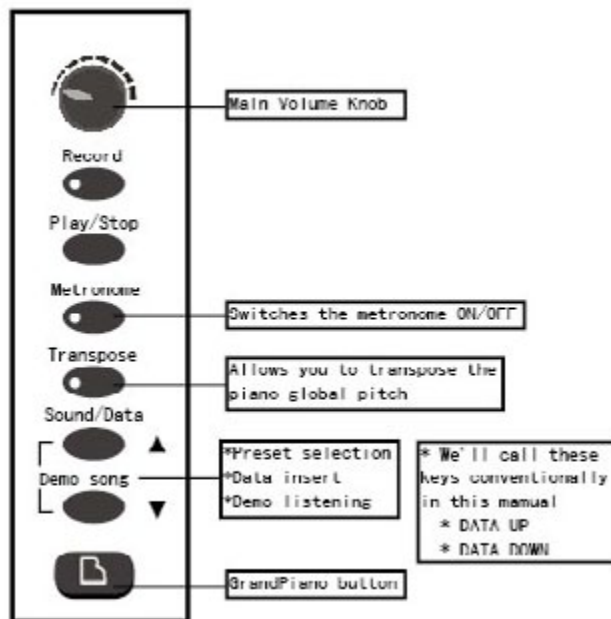

For these and many other reasons, you will discover the digital piano is an absolute pleasure to play!To get the absolute most out of the new piano, we recommend that you read this manual carefully so that you can take full advantage of all the advanced and convenient functions. We also recommend that you keep this manual in a safe and handy place for quick and easy reference in the future.

If you’re enjoying this digital piano, please kindly recommend it to your friends!

When you install the pedal,pls kindly pay attention to screw,pls be must to make the screw to close and touch ground ,if not ,the pedal will be easy to be damage

## CONTROL PANEL

## Power

Connect your piano to a appropriate AC outlet and switch it on using the power button located on the right hand side of the keyboard.Wait a couple of seconds while your piano powers up. The Grand Piano button will illuminate indicating the default sound.

## Volume

Turn the volume knob on the control panel to set your piano volume. Turning the knob to the left will decrease the volume and turning it to the right will increase the volume.

**Warning:** high volume may cuase damage to ears

## Headphone

In addition to the internal amplification system, you can connect two sets of standard stereo headphones.

The headphone inputs are located under the left-hand side.

- The headphone connection disables the internal speaker system
- The Main Volume knob adjusts the headphone volume.

## Record

**Start recording:** Press “Record”. As the indicate light in the button shows the start of recording, the metronome will automatically start. Press “Metronome” to turnoff if it’s not needed.

**Stop recording:** Press “Record” again to stop recording. When the memory capacity is full loaded, the recording will stop automatically.

## Play/Stop

To play the recorded track, press “Play/Stop”. Press again to stop.

## Demo songs

This digital piano features 65 built-in demo songs, you can play by following this procedure:

1. Start the demo sequence by pressing the two DATA UP/DOWN buttons AT THE SAME TIME.
2. Press the two DATA UP/DOWN buttons again to STOP the demo sequence.

## Sounds

First, power on the instrument (GRANDPIANO is automatically Selected). Press the DATA UP/DOWN button to change the instrument presets. Each time the button is pressed, the next preset is recalled (there are 26 available presets). Pressing the Grand Piano button on the control panel will return your piano to the GRANDPIANO sound.

## Instruction mode

Press and key together with UP/DOWN button to start instruction mode. There are 65 instruction tracks which can be selected by pressing different keys when starting the mode.

## Grand piano

No matter in what condition, press the METRONOME button on the panel to enable you return to initial status. Default preset is Grand Piano.

## Metronome

Press the METRONOME button on the panel to enable your metronome. The button LED-light will start flashing. The default metronome tempo is 120 BPM.

Press Sound/Data to select speed

By pressing the METRONOME button for more than 2 seconds, the piano will enter the metronome tempo settings.

Set the metronome tempo by pressing the corresponding key in the keyboard in a range from 30 to 250 BPM.

Press the METRONOME button to exit the metronome settings

## Transpose

You can transpose your piano by +/-12 semitones. Keep the TRANSPOSE button on the control panel pressed for more than 2 seconds (the corresponding button indicator blinks):

Press the SOUND/DATA buttons to change the current value.

Press the TRANSPOSE button to exit the transpose edit status.

The button indicator stops flashing but remains ON, to show the current transposed status of the piano.

## Function Control

Being an extremely user-friendly instrument, the functions of this digital piano are easily activated. Each function is associated with one of keys on the right keyboard. The name of each function is printed under the corresponding key for your reference.

Each programming function can be enabled by pressing the GRANDPIANO key. While holding the selected key, you can select the corresponding function. Press the GRANDPIANO button to exit the function status and return to normal mode

## Function Edition

Dynamics: It is divided into four types, off, light, standard and strong. Each of them is corresponding to one key. Press grand piano button to activate function select status, then press corresponding key to choose.

**Split Mode:** There are two statuses, on and off, which are corresponding to one key. First long press grand piano button to activate function selection. Then press corresponding function key to turn on or off split function.

**Dual Voice:** There are two statuses, on and off, which are corresponding to one key. First long press grand piano button to activate function selection. Then press corresponding function key to turn on or off dual voice function.

**Temperaments selection:** There are nine beat styles, which are 1,2,3,4,5,6,7,8,9, separately corresponding to 4 keys and 3 black keys. First long press grand piano button to activate function selection. Then press corresponding function key to choose beat style.

**Reverb:**There are two statuses, on and off, which are corresponding to one key. First long press grand piano button to activate function selection. Then press corresponding function key to turn on or off reverb function.

**Chorus:**There are two statuses, on and off, which are corresponding to one key. First long press grand piano button to activate function selection. Then press corresponding function key to turn on or off chorus function.

**Percussion:**There are two statuses, on and off, which are corresponding to one key. First long press grand piano button to activate function selection. Then press corresponding function key to turn on or off percussion function.

**Split Point:**Dual voice split point selection is corresponding to C key in the picture. First long press grand piano button to activate function selection. Then press corresponding key to activate this split point function. Press any key to set the dual voice split point. The original status of this digital piano's split point is Central C.

Rear connection board

F-10 connection

F-20 connection

- (1)Audio Output Stereo output, connect the digital piano to a peripheral speaker system
- (2)Audio Input Stereo Input, connect the digital piano to a built-in speaker system
- (3)USB USB MIDI connection
- (4)HEADPHONE Connecting headphone
- (5)Speaker Connect to speaker

Note: Speakers will be out of function while headphone is plugged in.

## USB MIDI

## Audio Connection

**Audio Input:** Connect the musical instrument to the built-in speaker system, regarding the digital piano as speaker.

**Audio Output:** Regarding this digital piano as sound source, connect it to the external speaker system.

## Bluetooth MP3 Function

- 1、 **Status Indicator Light:** Red light turns on to indicate USB, SD status. Blue light turns on to indicate Bluetooth status;
- 2、 **Previous Composition/Volume-:** In playing status, press it shortly to switch to previous composition. Long press to lower the volume;
- 3、 **Play-Pause/Bluetooth Matching:** Press it shortly to play or pause. Long press for Bluetooth matching;
- 4、 **Next Song/Volume:** In playing status, press it shortly to switch to next composition. Long press to raise the volume;
- 5、 **Mode Switch:** Switch between USB, SD and Bluetooth;

### 6、 SD Card Jack

### 7、 USB Jack

#### USB/SD Use Guideline :

The default status of Bluetooth is standby after power on. It switches to reading status after inserting USB and SD Card. The red LED flashes during reading. Press **【⏮】** or **【⏭】** to select composition; Press **【⏸】** to play or pause. The red LED lights constantly when it is paused.

#### Bluetooth Use Guideline:

Long press **【⏸】** to enter Bluetooth matching status and the blue LED flashes slowly. Use the cell phone to search for Bluetooth device. The blue LED will flash quickly while playing if it is matched successfully. Press **【⏮】** or **【⏭】** to choose music. Press **【⏸】** to play/pause music. The blue LED turns on shortly and flashes when it is paused.

If you want to switch to Bluetooth playing status when the USB and SD Card is reading, you have to press **【📶】** button to switch to Bluetooth mode for matching.

	Graded Hammer Feeling, Advanced multi-layer dynamics curves sensor recognition processing skill, making your performance and expression more easily		Easy to use Simple and Easy control panel
	MAF Filter Technique (Original sound effect) can create simulated mechanical noise to imitate grand piano and upright piano.		Speaker system is designed according to CD System Technique Standard. The sound is clearer and has more layers. The sound effect is more shocking.
	Spectral synthesis sampling technique can imitate traditional acoustic grand piano sound effect.		International top DSP processing skill, perfect combination of signal transmitting and post-production, makes your performance more pleasing to ear.

## Specification

- Keyboard:** Fatar 88 Grand-Response Key Trends with hammer action & dynamic curve keyboard
- Polyphony:** 128(Stereo);
- Demo:** 65 classical demos;
- Dynamics:** 5 kinds of standard piano dynamics curves;
- Sound:** 31, including 4 folk music and one percussion music;
- Record Function:** Record and replay, maximum notes for per composition is 12,000. MIDI Record supports 64 tracks, 16 channels. MIDI 0&1 format.
- Sound Control:** Grand piano tone, Double piano, Dual voice, Double Keyboard, Split point
- Dual Voice:** String music background, user can edit multiple sound combinations.
- Split Keyboard:** Double piano, Same range, Split the keyboard into two zones with same pitch, Piano Duet, String ensemble, Wind ensemble, Piano + The violin family, Guitar + Violin performance, multi-combination available.
- Volume Control:** Master volume, volume can be adjusted when you play in the evening.
- Transposition:** 25 gears, (0, -/+12)
- Effect Function:** 0-64 reverb, 0-64 chorus

●**Metronome:** 1,2,3,4,5,6,7,8,9

●**Pedal Function:** Imitated grand piano pedal function, soft pedal, selected sustain pedal, sustain pedal

●**USB Jack:** USBMIDI PC Jack, Unlimited composition record storage, Support 64 tracks 16 channels MIDI record, MIDI 0&1, GM International Standard, System unlimited extension and upgrade

●**Jack:** USB Jack, Pedal Jack, Power Jack, Headphone Jack\*2, Stereo Line In(\*2)/Line Out(\*2)

●**W:** 70W

●**Voltage:** AC120V

●**Size:**F-10:1355\*340\*750 (mm, L\*W\*H)

F-20:1366\*425\*816 (mm, L\*W\*H)

●**Weight:** F-10:45kg F-20:52Kg

●**Accessories:** Power Cable, Warranty Card, Certificate, User Guide

Troubleshooting	
Problem	Cause/Action
There is noise when turn on/off the power.	This is normal
After turn on the power, no sound is produced when press the keys.	Please confirm the connection to power is good
The note and its timber are of a little differences under the same patch.	This is normal
When use the sustaining function, some patches are long while others are short.	This is normal
The volume is too low.	Please turn up the the sound by using the volume switch buttom
Pitch from speakers does not match the key played	Please check if the double keyboard mode or transposition mode is on
Nose comes from speakers when near sell phones	This is normal, caused by interefrance from mobile signals
When use the mobile phone, there is some noises.	Moblle phone could bring in disturbance. To avoid the noise, turn off the moblie or keep away from the piano.
When play the piano, the pitch is not in accordance with the keyboard.	You may activate the SPLIT mode function. Please turn off it.

Pitches can not be changed when playing the piano, and the pitch is not in accordance with the keyboard.	You may activate the SPLIT mode function and set the split point to the highest level. Turn off the SPLIT mode function and set the split point to the original.
Distortion or intermittent for the demo songs.	Long time playing leads to high temperature of the amplifier, so self— protection system of the circuit board will startup. Turn down the volume or turn off the power for a while then it will return to normal.
Two sounds appear at the same time when playing the piano	You may activate the dual mode function. Turn off it.
Dynamics is not as before	There are four dynamics, including weak, standard, strong and off. You may select different dynamics. Select the dynamics again as per your needs.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
